

Reporting litterers

Litter is the most visible sign of pollution and remains one of our major environmental problems. Litter is anything left where it is not meant to be.

Litter from motor vehicles builds up on our streets, blocks our gutters and finds its way into our creeks, rivers and onto our beaches.

Littering is illegal and it makes our neighbourhoods untidy and dirty.

Rubbish thrown from motor vehicles is a major source of litter.

EPA Victoria's unique litter reporting program allows you to report people littering from motor vehicles. Register and report online at **www.reportlitter.com.au** or call 1800 LITTER and have a litter report form sent to you.

If you see someone throwing litter from a vehicle, take note of:

- vehicle registration
- make and model of the vehicle
- time and place that the offence was committed
- a description of the litter that was dropped.

When a litter report is fully completed EPA will issue the offender with a fine corresponding to the type of litter.
