INTRODUCTION	1
WHAT IS AN ACCREDITED AGENT?	1
HOW TO BECOME AN ACCREDITED AGENT	1
GENERAL	1

INTRODUCTION

This guidance identifies accredited agents and is designed to assist waste producers in managing the disposal of waste categories listed in Table 1.

Table 2 lists current authorised accredited agents and the categories they are approved to transport. The list is updated periodically and is subject to variation.

WHAT IS AN ACCREDITED AGENT?

An accredited agent is a person or company authorised by EPA Victoria to transport waste categories listed in table 1.

An accredited agent can:

- act on behalf of a producer and complete part 'A' of a waste transport certificate
- use one certificate for the collection of multiple loads from several waste producers.

HOW TO BECOME AN ACCREDITED AGENT

To apply for an accredited agent authorisation please refer to *IWRG Accredited Agent Application*.

GENERAL

An accredited agent may only be appointed to manage waste categories specified in Table 1 and the transporter must hold an EPA permit to act as an accredited agent for the specified waste category.

Table 1: List of waste categories for accredited agents

Waste category	Description	Applicable waste codes (as per IWRG Waste Codes)
Category 1	Grease interceptor trap effluent.	K120
Category 2	Animal and vegetable oils and derivatives.	K120
Category 3	Waste oils unfit for their original intended use.	J100, J150, J170
Category 4	Waste oil and water mixtures or emulsions and hydrocarbon and water mixtures or emulsions.	J120, J130
Category 5	Clinical and related wastes including waste from the use of pharmaceutical products, but excluding cytotoxics.	R100, R120
Category 6	Photographic waste which is waste from the use of photographic chemicals and processing materials.	T120, D261
Category 7	Organic solvents and/or solvent recovery residues (maximum individual collection in this category must not exceed an equivalent of a 205 L drum).	All G codes
Category 8	Small amounts of prescribed waste residues in containers or bags, except where the containers or bags have been dealt with in accordance with <i>IWRG Used Containers – Transport and Management</i> .	N100, N105, N110

This guidance forms part of the Industrial Waste Resource Guidelines (IWRG), which offer guidance for wastes and resources regulated under the *Environment Protection (Industrial Waste Resource) Regulations 2009* (the Regulations). Publication IWRG813 – June 2009.
